ABOUT US

Xinhong Group reorganized and expanded business in 2011, and has acquired quality management system certification of ISO9001, ISO14000, OHSAS18001, CE and UKCA product labels . Solvent-less rosin press is new product line for Xinhong Group since 2014, our team are offering an extensive range of equipment, accessories, and innovative process solutions that are based on advanced technology and a real knowledge of the plant extraction industry. Our team have designed and delivered the most reliable, efficient, innovative, and cost-effective solutions for the process and overall project implementation.

▼ Technical Parameters

Model	MRP Lite
Voltage	110V/220V
Power	100W
Heat Plates	5 x 7.5cm
Controller	Digital Pid Controller
Recommended Temp.	185°F / 85 °C
Temp. Accuracy	±4 °F / 2 °C
Max. Pressing Force	450kg /1000lbs
Working Style	Locking Lever Mechanism
Pressure Adjustment	Pressure Knob
Suggested Load Material	2-3 Grams
Dimension (L x W x H)	19 x 12 x 26cm
Packaging (L x W x H)	29 x 20 x 31cm
Product Weight	3.9kg
Shipping Weight	4.6kg
Certificate	CE,UKCA

Personal rosin press is the most lightweight model in our press line (G.W. only 4.6kg). Despite being compact, this manual machine generates up to 450kg of pressing force. The press features sturdy construction, a locking lever mechanism, adjustable pressure, 5 x 7.5cm dual heating insulated solid aluminum plates, temperature controls located at the top of the press,. Portable, sturdy and efficient, it is perfect for personal desktop operating or pressing during travel.

● **Digital Pid Controller**
The extraction press digital controller located at the top, it is used to set temperature for its 5 x 7.5cm dual heating plates, temperature scale options (°F or °C) and press timer.

● **Portable & Personal Press**
Very lightweight (under 4kg) and easy to carry, almost same height like a 500ml Coke bottle. The heat extraction press is an ideal personal press and it is fun to operate, and no other equipment is required to start pressing.

● **Food Grade Aluminum Plates**
5 x 7.5cm heat-insulated solid 6061 food grade aluminum plates with two separate heating elements heat up evenly and keep the temperature for the setting time precisely.

● **Sturdy Made & Adjustable Pressure**
The MRP Lite generates Max. 450kg pressing force, the knob above the heating plates also allows you to adjust the pressure between the plates to accommodate different plant material volume.

Model	MRP Mighty
Voltage	110V/220V
Power	100W
Heat Plates	5 x 7.5cm
Controller	Two Channel Temp. & Timer Controller
Recommended Temp.	185°F / 85 °C
Temp. Accuracy	±4 °F / 2°C
Max. Pressing Force	550kg / 1200lbs
Working Style	Locking Lever Mechanism
Pressure Adjustment	Pressure Knob
Suggested Load Material	2-3 Grams
Dimension (L x W x H)	24.5 x 13.5 x 26cm
Packaging (L x W x H)	35.7 x 19.1 x 32cm
Product Weight	5.5kg
Shipping Weight	6.5kg
Certificate	CE,UKCA

Canna Extracts Mini Portable Rosin Press MRP Mighty makes it easier than ever to press plant material at home. Just set up your temperature and time on the digital control panel, load your herbs, and press away! This stylish appliance in a variety of colors features 5 x 7.5cm solid aluminum 6061 heat plates with stable heating tubes, convenient lever mechanism, and removable dust cover.

● **Precise Temp. & Timer Controls**
MRP Mighty is equipped with a precise two-channel temperature and timer controls. You can program your press with desired temperature separately for each plate, temperature scale (℉ or ℃) and set your timer.

● **Dust Free Cover**
Canna Extracts comes with a removable dust cover that keeps the working surface of the litter and dust free between pressings to minimize its maintenance cleaning and preparation time for your next extraction job.
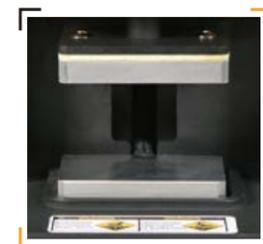

● **Food Grade Aluminum Plates**
5 x 7.5cm heat-insulated solid 6061 food grade aluminum plates with two separate heating elements heat up evenly and keep the temperature for the setting time precisely.
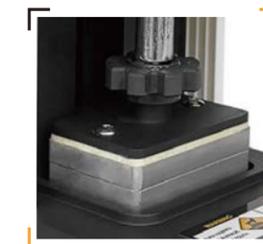

● **Sturdy Made & Adjustable Pressure**
The MRP Mighty generates Max. 550kg pressing force, the knob above the heating plates also allows you to adjust the pressure between the plates to accommodate different plant material volume.

Canna Extracts MRP Pro Manual Rosin Press is another compact and lightweight model in our press line. It is somewhat similar to its predecessor, the MRP Lite model , but much more powerful (it generates up to 2 Ton of pressing force), with well aligned slightly larger 7.5 x 7.5 cm plates, and a complimentary table clamp that allows you to securely attach the press to any work surface for added stability. This is an ideal tool to start your solvent-less extraction while on the go.

● Precise Temp. & Timer Controls

Canna Extracts MRP Pro is equipped with a precise two-channel temperature and timer controls. You can program your press with desired temperature separately for each plate, temperature scale (°F or °C) and set your timer.

● Integrated Steel Handle

Damage-free Lever System Guarantee - The innovated lever system is made of a blackened steel body, a U-shape steel, chrome steel connecting rod, pressure adjusting knob, and an extra-long handle (25cm long).

● Fast Fixed Table Clamp

Table Clamp with a knob is easy to lock or unlock the press on the table, Does not shift Not only is it comfortable to operate, but it also saves time and effort.
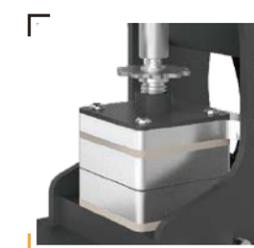

● Food Grade Aluminum Plates

Dual 7.5 x 7.5cm heat-insulated solid 6061 food grade aluminum plates with two separate heating elements heat up evenly and keep the temperature for the setting time precisely. well suited to press 3.5 - 5g flower or kief, hash, etc.

Canna Extracts HRP Lite generates 3/5/10 Tons of crushing force and is equipped with 7.5 x 12cm insulated solid aluminum dual heating plates, precise temperature and timer control with a built-in power conservation option, and a carrying handle. The pressure and ram speed is controlled by simple pumping of the cranking handle.

● **Precise Temp. & Timer Controls**
Canna Extracts HRP Lite is equipped with a precise digital PID temperature and timer controls. You can program your press with desired temperature separately for each plate, temperature scale (°F or °C) and set your timer.

● **Easy to Operate**
All-In-One, No extra equipment required. Ergonomic handle design allows you to move the press conveniently.

● **Food Grade Aluminum Plates**
7.5 x 12cm heat-insulated solid 6061 food grade aluminum plates with two separate heating elements heat up evenly and keep the temperature for the setting time precisely.

● **Suction Cups**
4 suction cups at bottom grab the extraction press for strong & stable hold on bench or desk.

Canna Extracts HRP Pro+ is the perfect rosin press for seasoned connoisseurs as well as beginning pressers who demand precision, affordability, and convenience in one package. With its 5/10 Tons hydraulic power means you can get high-quality presses every time, while the built-in pressure gauge and other sensors and controls ensures your rosin is delivered at the desired pressure and temperature for optimum results.

● **Precise Temp. & Timer Controls**
Canna Extracts HRP Pro+ is equipped with a precise two-channel temperature and timer controls. You can program your press with desired temperature separately for each plate, temperature scale (°F or °C) and set your timer.

● **Built-In DripTek Stand**
Detachable DripTek stand can tilt HRP Pro+ Hydraulic Rosin Press press up to 60°and hold the position, while fresh concentrate flow dripping off plates during pressing.

● **Pressure Gauge**
Not only showing you live pressure readings but also suggested pressure ranges for a given precursor weight. Enjoy the gradual increase in force, the fresh concentrate flows slowly, ultimate experience.
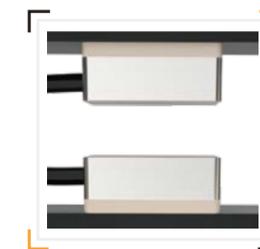

● **Food Grade Aluminum Plates**
Dual 7.5 x 10cm heat-insulated solid 6061 food grade aluminum plates with two separate heating elements heat up evenly and keep the temperature for the setting time precisely.

■ Canna Extracts ERP Mighty Electric Rosin Press is equipped with an electric putter (generates up to 1ton of pressing force), a precise LCD temp.&timer controls, 6 x 9cm heat-insulated 6061 food-grade solid aluminum plates. It's easy to operate as a regular coffee machine, just set up your temperature and time on the digital control panel, load your herbs, and push a start button!

● **Precise Temp. & Timer Controls**

Canna Extracts ERP Mighty is equipped with precise LCD temperature and timer controls. You can set the desired temperature separately for each plate, temperature scale (°F or °C), and set your timer.

● **Hands free style start with Me**

An electric putter and "Press" & "Release" button to control pressure freely, the heating plate can move up and down arbitrarily. just hold or inching "Press" button to start pressing and hold or inching "Release" button to separate.

● **Food Grade Aluminum Plates**

6 x 9cm heat-insulated solid 6061 food-grade aluminum plates with two separate heating elements heat up evenly and keep the temperature for the setting time precisely.

● **Lightly but Sturdy Made**

Lightly and easy to carry, made of precision laser cutting of premium steel and excellent welding craft, non-rusting and durable.

■ Canna Extracts HRP Lion 20 Ton is specially designed for a solventless, pure extraction process on a larger scale. This unit gives you more pressing power and a larger pressing quantity for the industry's high-level extractors. The heating plates are made of food-grade insulated aluminum. The precise two-channel temperature and timer controls allow you to set the temp. for upper and bottom platens separately.
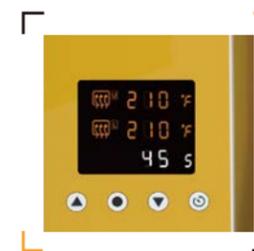

● **Precise Temp. & Timer Controls**
Canna Extracts HRP Lion is equipped with precise LCD temperature and timer controls. You can set the desired temperature separately for each plate, temperature scale (°F or °C), and set your timer.

● **Drip Tech System**
Drip Tech System can tilt HRP Lion up to 90 degrees and hold the position while fresh concentrate flow dripping off plates during pressing to allows rosin to fall immediately to a cold surface below for terpene preservation.

● **Pressure Gauge**
Not only showing you live pressure readings but also suggested pressure ranges for a given precursor weight. Enjoy the gradual increase in force, the fresh concentrate flows slowly, ultimate experience.

● **Large Platen Size**
10 x 17.5cm heat-insulated solid 6061 food-grade aluminum plates offer more space to provide the most versatility in commercial use for both cannabis flower and kief.

HRP Gorilla Industrial Strength Hybrid Rosin Heat Press produces up to 20 Tons of force and is built for mass rosin production.It equipped with built in DripTech function. This press is powered by an electric-pneumatic system. Its large heating plates are made of food-grade aluminum for even heat distribution and are insulated to prevent heat loss to other parts of the press. It can extract up to 70 grams of flower per load. The microcomputer touch control unit allows you to use a lower recommended temperature settings and controlled pressure to produce premium quality oil with the best aroma, taste, and clarity.

● **FREESTYLE" &"AUTOMATIC" Mode**

FREESTYLE mode, just hold or inch "Press" & "Release" buttons to control pressure freely, enjoy the pleasure of the process of operating. AUTOMATIC mode, one button for all operations, free your hands.

● **Touch Smart controller**

Multi-functional Smart Controller independently controls the temp. of the upper and bottom plates. You can easily get PSI once you input data of pressure value and filter bag size.

● **DripTech function&316 food grade tray**

With the ingenious DripTech design and tray, the Heating plates tilt during pressing, the fresh concentrate flow dripping off plates to the tray, Easy to collect.
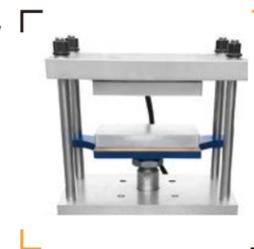

● **Large 6061 Food-Grade Plates**

Heat-insulated solid 6061 food-grade aluminum plates offer more space to provide the most versatility in commercial use, which makes the work more efficient; Mature Craftsmanship and Advanced Lathe make Heat Plate smoother and brighter.

❖ Rosin Press Plates Kit

Model #: RPKT36
Material: Food Grade 6061 Aluminum
Size: 7.5 x 15cm, 10 x 15cm, etc.
Packaging: Carton

Highlights

- Precise Temp. & Timer Controller
- Dual Heating Insulated Plates
- 10 - 20 Ton Hydraulic or
  Air-Operated Shop Press
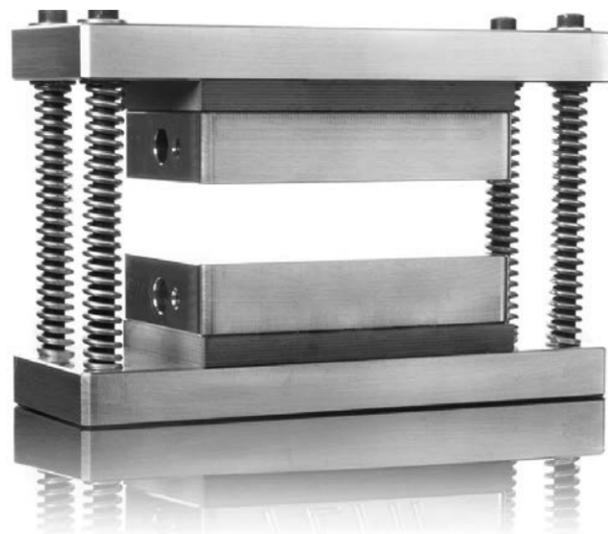

❖ Rosin Press Mold Presser

Model #: RMP
Structure: Lever Mechanism
Application: Kinds of Press Molds,
              Pollen-Press Molds
Packaging: Carton

Highlights

- Compacts Your Rosin Molds
- Increases Yields
- Better Pressing Result
- Reduces Filter Bag Blowouts

❖ Rosin Press Mold

Model #: RPM510/ RPM515
Material: Food Grade 6061 Aluminum
Size: 5 x 10cm, 5 x 15cm, etc.
Packaging: Gift Box

Highlights

- Perfect Workmanship
- Compacts Your Herbs
- Increases Yields
- Reduces Filter Bag Blowouts

❖ Rosin Pollen-Press Mold

Model #: RPPM27/ RPPM35
Material: 304 Stainless Steel
Size: 2.7 x 0.3 x 10cm, 3.5 x 0.3 x 12cm
Packaging: Gift Box

Highlights

- Perfect Workmanship
- Easy to Clean & Dishwasher Safe
- Compacts Your Herbs
- Increases Yields
- Reduces Filter Bag Blowouts

❖ Cooling Plate for Collection

Model #: CP15
Material: Food Grade 6061 Aluminum
Mark: Cooled in Refrigerator Before Use
Size: 15 x 15cm
Packaging: Regular Packaging

Highlights

- Food Grade Contact Surface
- Cooling Rosin Oil Purpose
- Conveniently placing in Refrigerator

❖ Rosin Filter Bags

Model #: RRB
Material: 100% Dye-Free Food Grade
            Nylon Mesh
Spec.: 37/90/120/160μm
Size: 5 x 10cm, 5 x 15cm, etc.
Packaging: At Buyer's Option

Highlights

- Super Tight Folded Seam Nylon
- Double-Stitches Eliminates Breaking
- Boiling and Solvent Resistant
- Withstand Temperature 200ºC

❖ Rosin Wax Collection Tool

Model #: RWCT
Material: 304 Stainless Steel
Size: 5 Double-Ended Tools
Packaging: Free Carrying Case

Highlights

- Portable, Fits in Pocket
- Working Great with Wax
- Ten Precision Edges, Variety of Shapes

❖ Rosin Parchment Paper

Model #: RPP
Material: Double-Side Coated with
            Natural Silicone
Thickness: 30gsm, 40gsm, ect.
Packaging: At Buyer's Option

Highlights

- Non-Stick; Hot-Plate Safe
- Heat Resistant up to 230ºC
- Safe to use with Scrapers
- Made by Natural Materials
- Reusable up to 2-4 times

● 1. Press Set ⦿ button on the control panel (Fig. 1) to go to the temperature setting mode for the top platen.

● 2. Press Up ▲ or Down ▼ buttons to select the desired temperature (Fig.2). The selected temperature is shown on the U line of the display. Tip:Enter the temperature either in ºF or ºC; you will be able to select the temperature scale later.

● 3. Press Set ⦿ button again (Fig. 3) to go to the temperature setting mode for the bottom platen.

● 4. Press Up ▲ or Down ▼ buttons to select the desired temperature (Fig.4). The selected temperature is shown on the L line of the display.

● 5. Press Set ⦿ button again (Fg.5)to go into the timer setting mode.

● 6. Press Up ▲ or Down ▼ buttons to select the desired time in seconds (Fig.6).

● 7. Press set ⦿ button to go to the temperature scale selection mode (Fig. 7). TiP: Depending on your machine's default settings, you may either see "F" or "C" on the display indicating the currently selected temperature scale (ºF or ºC).

● 8. Press Up ▲ or Down ▼ buttons to select either ºF or ºC (Fig. 8) OR skip this step if you are satisfied with the current selection.

● 9. Press Set ⦿ button TWO times (Fig. 9) to record all control panel's settings. The platens start heating, and the heating icons are now displayed on the screen (Fig.10).

● 10. Wait until the plates reach the desired temperature and the heat icons are turned off (Fig. 11).

● 11. Press the TIMER button on the control panel (Fig. 12). The control panel starts showing a countdown. Wait unitl the countdown ends and the press starts beeps, then press the TIMER button again to turn off the timer and stop beeping.
