

## **13x13cm Label**

It offers precise printing on 13x13cm label substrates, which is perfect for small designs and detailed logos.

## **18x38cm Tote Bag**

This Platen is perfect for the tote bags and some smaller items, ensuring optimal transfer performance.

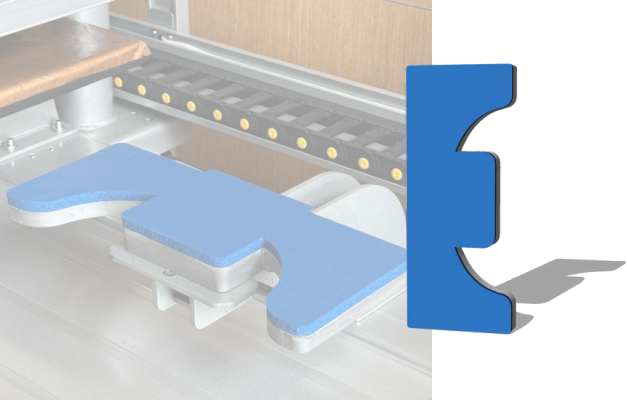

## **12x45cm Sleeve**

The 12x45 cm platen is intended for decorating long, slender items such as sleeves and legs.

## **30x35cm Mini Shirt**

Ideal for smaller garments and longer designs, even transfers on smaller women's and children's clothing.

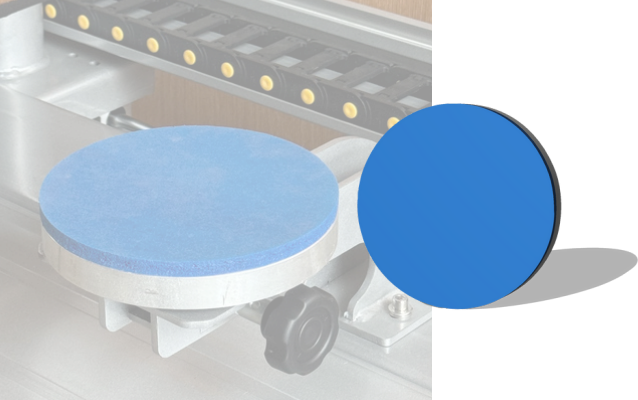

## **12x36cm Shoe**

12x36 cm platen is perfect for transferring designs on youth and adult shoe sides.

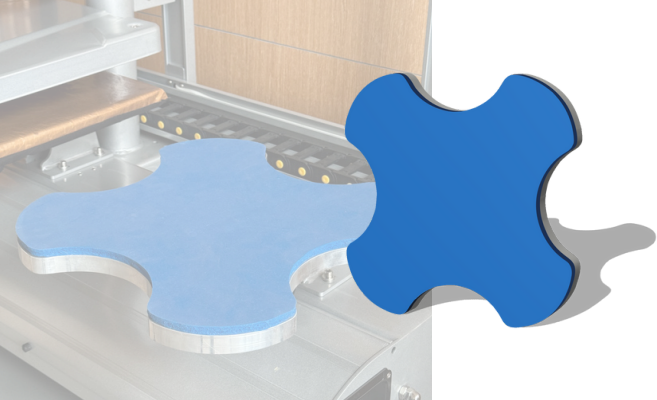

## **40x50cm Tag Along**

This platen efficiently heat press shirt fronts and labels, allowing for the simultaneous transfer of graphics and labels.

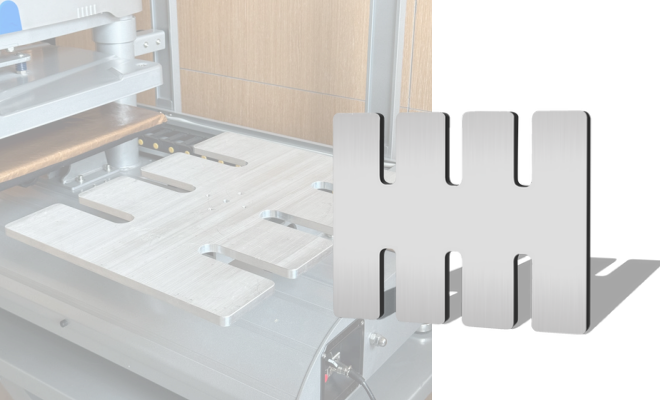

## **18cm Round**

Designed for gym bags and items that need a round printing surface

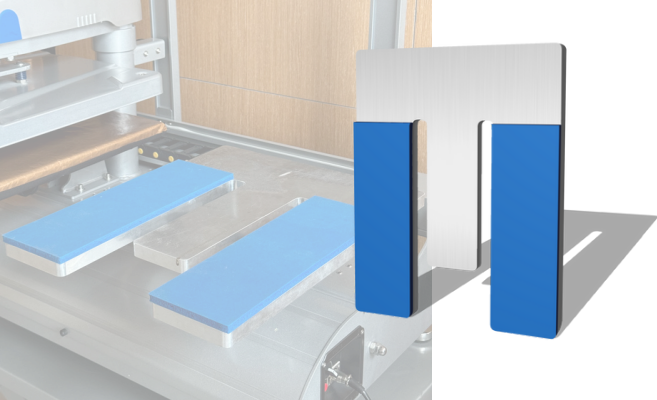

### **38x38cm Hat Bill**

Print the underside of hat bills or turn the cap inside-out and print the top of the bill, providing flexibility for custom hat designs.

## **40x50cm Can Cooler**

This platen is designed for high efficiency, allowing you to dress, decorate, and undress up to 8 can coolers simultaneously

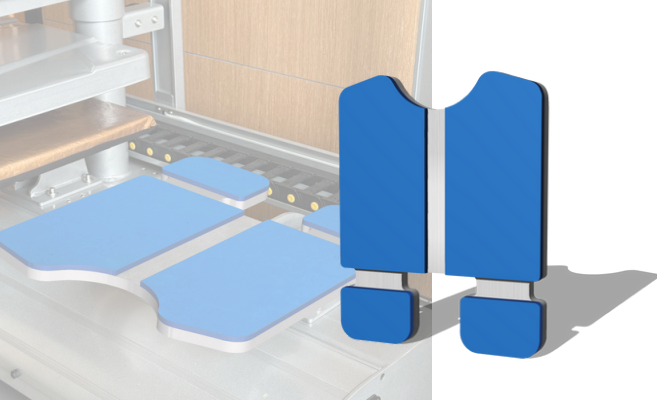

## **40x50cm Double Sleeve**

Perfect for printing on sleeves and trouser legs, allowing simultaneous transfer of designs on two sleeves or trouser legs.

## **40x50cm Polo**

With a special focus on protecting the button area, this Polo shirt platen ensures preventing damage to the buttons.

## **40x50cm Combo**

Designed for multi-functional use, the Combo platen is perfect for zipper jackets, clothing labels, and Polo shirts.
